2 5X1X	1. On 3 October 1952, Leipzig-Mockau airfield was unoccupied. The three approach roads to the field branching off from Duebener highway had barriers which were not guarded. On 5 and 6 December, no change was observed on the status of the field. On 11 February, a board fence about 2 meters high was observed along the western edge of the field. Eight 10 VPL men operated with a device, probably a theodolite. Three men we
